Location: Veltkamp Livestock Feedlot, 1393 Kuipers Rd, Manhattan, MT

Welcome to our 13th Anniversary bull sale! Please join us on March 19, 2025. We are blessed to have you as friends, customers and fellow cattlemen/women.

This year's set of bulls is the best yet; and we are honored to share them with you. Constant progress is a good thing. Bulls will sell in catalog order unless otherwise announced from the block on sale day. As most of you already know, we don't load the front of the sale; but rather spread top bulls throughout the offering. There are several bulls that don't have a full page to themselves that are deserving of such and should not be overlooked.

In addition to our Faith, our next greatest strength is being a family run operation who handles our own cows; having personal knowledge of...and experience with...each and every cow in the herd. Utilizing only exceptional cows to build an elite herd that produce high-quality offspring. Calving out 250 cows, we cut deep to bring you the best of the best. This philosophy increases the probability of buyer satisfaction; along with persistently building our superior cow herd. Through this process, we are able to select for structure, mothering ability, docility, fertility and longevity; maintaining integrity in our program. We are deeply invested in breed improvement; not just number values.

The bulls spend their summer in the mountains and on drylands; so they know how to forage and must be structurally correct to thrive – no irrigation, no creep – just mama's milk, grass and water. Since they were weaned last fall, they have been in the capable hands of Phil Veltkamp and crew; where they have been fed a mixed, high-roughage ration (striving for an average 3#/day gain). All bulls have been ultra-sound carcass tested, fertility tested and met soundness exams. In addition, they are current on deworming and vacs including foot rot. Adding accuracy and helping to identify their potential heritability; we GGP tested these guys. EPDs are just a TOOL. Like everything else, they are a work in progress and are constantly improving. There are still many important traits that have no EPD system in place (the phenotype and convenience traits) – that's where the “added value” of personal “cow knowledge” and integrity of the breeder play essential roles. All the bulls in the pen are contemporaries. Our daughter (owner of green tag bulls) takes our photos. Although she may have removed some straw and mud; she DOES NOT alter the animals in any way. Feet have not been trimmed.

We welcome you to browse through the bulls prior to sale day (give us a call; we'll join you at the feedlot). You are also invited to view their dams here at home prior to sale day. Let us know if we can be of any help. We look forward to seeing you at Veltkamp Feedlot on Sale Day, March 19, 2025. Until then, God Bless & safe travels

Dave & Kay

Klompfen Red Angus Annual Bull Sale

March 19, 2025 • 1pm MST • Manhattan, MT

Auctioneer:

Kyle Shobe: 406.366.0472

Sale Representatives:

Devin Murnin: 406.696.1502 (Western Livestock)

Jeff Thomas: 406.581.8859 (Prairie Star)

Matt Wznick: 406.489.2414 (Western Ag Reporter)

Rachael Oliver: 406.480.1569 (RAAA)

Sale Day Phones:

406.581.2126 - Kay's Cell

406.599.5334 - Kara's Cell

406.599.4914 - Paul's Cell

Sale Location:

Veltkamp Livestock Feedlot

1393 Kuipers Rd, Manhattan MT

Veterinarian:

Dr. Nick Johnson

Intermountain Veterinary Hospital • 406.388.6275

Sale Order:

Cattle will sell in catalog order, but are subject to change on sale day

Supplemental Information:

Scrotal measurements available on our website after 2/28/2025.

Delivery:

Pick up your bulls on sale day or the following day and receive \$100 off each bull purchased. Free shipping up to 300 miles from Manhattan, MT. Klompfen Red Angus will assist in making delivery arrangements at cost. All deliveries are at the buyer's risk.

Genetic Defects:

All known cattle with a genetic defect have been tested and/or eliminated from the Klompfen Red Angus herd.

Klompfen Red Angus Guarantee:

All bulls that are in good breeding condition at the beginning of the first breeding season are guaranteed breeders. This does not include any injury. All claims for adjust or refund must be made within the first six months of the sale date.

Sale Lot Videos:

Available to preview on www.dvauction.com

Internet Bidding:

DVAuction: www.dvauction.com

Sale Catalog:

Kara Herbst & Ballyhoo Printing

Sale Terms & Conditions:

Any terms and conditions not covered by the catalog will refer to the Standard Terms & Conditions set forth by the Red Angus Association of America. Terms of the sale are cash unless other arrangements have been made.

Liability:

Announcements made by the seller on sale day will take precedence on any statements in the catalog. All persons attending the sale do so at their own risk. Seller/Manager assumes no responsibility, legal or otherwise, for any accidents occurring in, on, or about the premises.

Retained Interest:

Klompfen Red Angus is retaining 50% semen interest in all bulls.

EPDs:

All EPD's in the catalog are current as of 2/11/2025.

Volume Discount:

A 5% discount will be given on the purchase of 5 or more bulls.

Livestock Insurance: Jeff Thomas: 406.581.8859

Directions to the Feedlot

Directions:

1. Turn on Manhattan Frontage Rd South
2. Turn slightly left onto Wooden Shoe Rd
3. Take 1st right onto Gravel Pit Rd
4. Drive for 1.2 miles and the feedlot is on the left

Calving Ease Stars

In order to help identify whether we recommend a bull to use on heifers or cows; we use calving ease stars.

- ★★★ Indicates that the bull should work well on heifers
- ★★ He should work on larger heifers as well as cows
- ★ We recommend that you only use him on cows

We have chosen to list actual BW. That being said, 1st calf heifers typically have calves that weigh 7# less than if they were mature; 2nd calvers are typically down by 4#. The reverse is also true: If a 3-10 yr old were a first calf heifer, her calf would typically weigh 7# less using the same mating. BW influences CE by 65%. Between environment and genetics; the female is responsible for 60-70% of the BW of the calf; whereas the sire is responsible for 30-40%.

RED ANGUS VALUE-ADDED PROGRAMS

GENETICS | AGE | SOURCE

Feeder Calf Certification Program

- Traceability to at least 50% Red Angus genetics
- Source verified to ranch of origin
- Group age verified

No enrollment fee, just the cost of your program tag choice.

AGE | SOURCE

Allied Access

- Source verified to ranch of origin
- Group age verified

No enrollment fee, just the cost of your program tag choice.

GENETICS

Premium Red Baldy

- Females only
- Red Angus or Hereford sired
- Top 50% of breed for ProS or BMIS Indexes
- Red bodied with bald or brockle face

*Not a USDA Process-Verified Program
No enrollment fee, \$1/tag*

GENETICS

American Red

- Females or steers sired by Red Angus bulls in the top 50% ProS Index or by Santa Gertrudis bulls in the top 50% Balanced Index
- Breed percentages range from 25-75% Red Angus or 25-75% Santa Gertrudis
- Dams of qualified calves must contain at least 50% of reciprocal breed

*Not a USDA Process-Verified Program
Yearly \$50 enrollment fee, \$1.25/tag, five-head minimum*

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Dam's MPPA/Age	104	4

DKK Justified 4066 is the standout Kick Off bull this year, known for his impressive structure, mahogany coat, and massive barrel. He ranks in the top 31% of the breed across 15 EPDs, including the top 1% for ProS, 2% for HB, and 18% for GM. Justified began his performance with an 87 BR, which led to a 110 WR and 103 YR. His sire, CK THOR SX 2071, has produced 7 paternal brothers in this sale, contributing significantly to the program. Justified's dam has a 104 MPPA on 4 calves, and his grand-dam, DKK Impress 157, still contributes at 14 years old with a 102 MPPA on 12 calves.

This is one impressive bull with a square build, a huge barrel, and a soft eye. He boasts a 108 IMF ratio and an average gain of 3.79 lbs/day on a 3# ration, showcasing his remarkable structure and mass. Raider is gaining recognition for siring structurally flawless progeny with excellent dispositions and performance. Maternally, DKK Impress 0113 is a productive, eye appealing cow with a 100 MPPA and a 352-day calving interval. Maternal Granddam, DKK Impress 524, boasts a 105 MPPA and a 366-day calving interval.

If you are looking to put some style, beef and substance back into the gene pool, this is your guy. Massive ribbed, deep flanked and just like the rest of the DKK Brute 931's, he is definitely not frail. Posting a 108 WR, a 109 YR along with a 3.56 ADG; additionally posting 121 IMF and 112 REA ratios via ultrasound. Thick over the top, with a wide hip. His lovely young dam already claims a 101 MPPA on 3 with a 366-day calving interval, and the most picture-perfect udder.

Oh man does this bull remind us of his sire, super dark super growthy and super good. He claimed the biggest yearling weight of the bulls. The explosion of performance in this Thor son is what performance seekers want, and what cattle feeders appreciate. His dam is power house cow with extra frame and always catches eyes out in the pasture. He has a straight topline, extra clean sheath, and walks on solid set of feet. Get excited to bring his steers to town and keep his daughters as replacements.

This stylish bull combines excellent calving ease with strong maternal traits and carcass quality (107 IMF ratio). Boasting 11 EPDs in the top 24% of the breed, with 7 in the top 10%. Moderate-sized with an 80 birth ratio, this calving-ease bull posted an impressive 107 WR. He is out of a fancy first-calf heifer who already boasts a 103 MPPA, and was purchased from Seeger and Rusch.

Solid calving ease sire here, smooth-made, from our high-performance calving ease sire VGW Astonishing. He has an ultra-clean, smooth front and is super eye appealing. His first calf dam really hit it out of the park with this one, bringing home an MPPA of 106 on her first try. The Star cow family is one of our favorites—they add extra muscle and extra growth.

This straight-topped, smooth shouldered bull stands out. He also posts impressive 105 ratios for both IMF and REA. With a strong top, deep rib, extended spine and smooth shoulders 4139 defines structural soundness. Mama is possibly the biggest bodied cow on the place and her progeny keeps knocking it out of the park.

Power, Performance and Proven Genetics. Massive, long, deep and bred to perform – this bull ranks in the top 4% and 6% of the breed for growth traits. With a 104 WR, 108 YR, and an impressive 138 IMF ratio, he's certainly getting the job done. Once again, we're thrilled with these Raider sons! HRP Raider 2020K may very well be the best Complete 7000E son out there. I'll tread lightly here – selling 4153's dam, DKK Tidybee 8196, in the Big Sky Elite sale last December may have been a mistake! She's also the maternal granddam of lot 20.

Packed with calving ease, this smooth-shouldered, high-capacity moderately framed bull excels in both structure and performance. He ranks in the top 39% of the breed for 14 EPDs/Indices and boasts an impressive 112 IMF ratio. His young Dazzle dam earned a perfect udder at calving time. A well-balanced prospect with exceptional genetics.

The standout high ADG bull of the pen, earning an impressive 125 ADG ratio and 112 REA ratio. Structurally, he mirrors his full ET brother (Lot 8) but trades CE for elite performance, ranking in the top 1% of the breed. Sired by the renowned PIE Quarterack 789, a bull known for his sound structure, low birth and explosive growth. 4149 follows suit with a strong top, deep rib, extended spine and smooth shoulders – all hallmarks of structure excellence.

Mark this guy as one of the most complete bulls in the offering. He is complete in every way with a strong top, long sides, and full of red meat. Notice the biggest ribeye scan of the entire offering. His sons will push down the scales, and his daughters will be front pasture cows. His dam is a deep bodied cow that always brings home a good one.

It's no secret that Dave and Kara always save a standout bull for the end of the sale, and this year is no exception! Isn't he awesome? With a long, straight top, huge barrel and fantastic disposition, he's built to impress. His numbers speak for themselves -- 107 WR, 114 YR, and a 117 ADG ratio and 110 REA ratio – showcasing his exceptional growth and carcass potential. Backed by Lakina, Impress and Sheba cow families, you can expect his daughters to have outstanding feet, udders and dispositions. A bull with pedigree, performance, and maternal strength – he's the kind you don't want to overlook.

Klompfen Red Angus Recipe 2025

Beef Stew

3 Tbsp flour	2 cups beef broth
2 lbs beef stew meat	14.5 oz crushed tomatoes
2 Tbs cooking oil	3 medium potatoes (cubed and peeled)
1/2 cup chopped onions	1 1/2 cups sliced celery
1/2 tsp dried thyme	1 1/2 cups sliced carrots
1 bay leaf	Salt and pepper to taste
2 tsp crushed garlic	

In a plastic ziplock bag combine flour with salt and pepper. Add stew meat a handful at a time - shake to coat. In a large saucepan brown the coated stew meat in hot oil. Put browned stew meat in crockpot with the rest of the ingredients. Cook on low for 6 to 7 hours.

Drop Cream Biscuit

- 1/4 c white sugar
- 2 cups flour
- 2 tsp baking powder
- 1/2 tsp salt
- ** Mix together
- ** Add 1 3/4 cups heavy cream
- ** Mix again

Preheat oven to 400 degrees -- Makes 8 biscuits.

Plop biscuits on the baking sheet with a spoon - you do not need to form them.

Bake for 15-18 minutes
